SANDS SARSAPARILLA .-- Exhausted by the heats of summer, the vital functions at this season 19.782 39 time to time, made special grants of large and of the year are seldom performed with the vigor 81,554 56 valuable tracts for State academies, colleges, and regularity necessary to perfect health. The 176 62 &c. The grants to several of the States are secretive organs but lazily fulfil their duty; the digestive powers become relaxed; while the surface of the body but imperfectly exhales the waste water which should pass off through the pores, and the excretory organs do not act with their accustomed vigor. The consequences are cutaneous eruptions, running sores, glandular swellings, a morbid condition of the liver, dyspepsia, &c. In some cases one of these results, in others all of them ensue. To effect a cure it is necessary that the stomach be invigorated, the fluids purified, the circulation regulated, the absorbents stimulated to a healthy action, and the pores opened. The tonic, anti-septic, and slightly aperient properties of this preparation, render it peculiarly adapted to these purposes. By its renovating influence a new impetus is imparted to the whole physical machine. ry, and Nature is enabled to shake off the elements instances appropriated by them to the cause of of disease, which, accumulating during the hot summer, now begin to develope themselves in va- advanced.
